REWARD OF ONE THOUSAND (1000) RUPEES.

NOTICE is hereby given, that the Hon'ble the President in Council, with the view of obtaining greater security in the conveyance of Banghy Parcels, especially in reference to protection against the weather, has been pleased to offer a Reward of the abovenientioned sum for the discovery of the most effectual means of rendering Banghy Conveyances Water-proof, subject to the following stipulations:

First.—The Box, Basket, or other Case, of whatever material constructed, must be of the dimensions of 18 inches cubic, or capable of containing 5800 cubic inches, and should not exceed ten, or at most eleven pounds avoirdupois in weight, including the fastenings necessary to secure the contents from being pilfered.

Second.—The Box, Basket, or Case, must be suffi-ciently substantial to protect it, contents from injury, and to support the thumps and blows from stones and trees; to which it is liable in traversing rocky ground and jungle and must be perfectly impervious to water, for it must be borne in mind that Banghy Boxes, besides exposure to the downward fall of rain, are subject to continued splashing and dipping in water when carried through flooded lands.

Third.—To entitle a party to the offered reward, two complete specimens of the Box, Basket, or Case must be furnished, accompanied by a memorandum explaining in detail the materials of which it is composed, and the cost and manner in which the same can be prepared sither singly or by degree or more be prepared either singly or by dozens or more.

Lastly.—The Boxes, Baskets, or Cases, with their accompanying reports, must be delivered to the Post Master General on or before the 31st of July next, when their merits will be decided upon by a Committee of Officers of Government who will be required name to examine them and to subject them to such experiments as may be deemed requisite to test their fitness. No test however will be considered conclusive unless the same be supported by actual transit of the Box, Basket, or Case in the height of the South West Monsoon from Calcutta to Cawnpore and back, and return without injury to its contents. A report on the specimens will be made to Government with whom the final decision will rest, and in the event of more than one specimen being considered perfectly Water-proof and as such recommended for reward, the Government will exercise a discretion in granting such reward to more than one candidate, or in selecting the speci-men that may be most efficient by the combination of lightness, cheapness, and strength.

GENERAL ORDERS BY THE RIGHT HON'BLE THE GOVERNOR GENERAL.

SIMLA, 25 MAY, 1838.

The Right Hou'ble the Governor General of India has much pleasure in publishing to the Army, the following paragraphs of a Letter from the Horble the Court of Directors, in the Military Department, to the address of the Governor General of India in Council, No. 7 of 1837, dated the 29 a of November last.

" Reply to Military Letter.

dated 14th February, 1037, (No. 20.) Submit for Court's fivorable consideration, five Me from O.ficers of the Memorials Bengal Army, praying that, for the reasons stated, the Court will re-call their Orders of 6th June 1798, requiring from an Officer, about to retire on pension, a declaration on oath, that he had not received, and would not receive any pecuniary or other gratification or compen-sation for so retiring. Government consider, that the practice which has for some time obtained, altho' now for the first time brought to notice, of inducing Time-expired Officers, under the rank of Lieutenant Colonel, to retire from the Service, must conduce to the contentment of the Officers, and to the efficiency of the Army.

Para, I. The Memorials now submitted to us arise ent of the Mano ial of Lieutenant Colonel Powell, of the Bonbay Arny, the important subject of which we informed the Government of Bombay, we would notice in our correspon lence with

Government of India. 2. We now desire, that you will cause Lieutenant Colonel Powell to be inform. ed, through the Go-vernment of Bombay, in reply to that part of his Memorial which indicates a wish for Line Promotion in certain cases below the rank of Major, that we

cannot contemplate the possibility of sanctioning any measure which would infringe upon the integrity of Regimental rise; and, in reply to the remainder of his Memorial, that we see no necessity for interfering with the arrangements which the Junior Officers of a Regiment may make, in individual cases, for adding to the comforts of a Senior Officer, on his retirement from the Service upon the pension to which he may

be entitled.

3. The Regulation of 1798, requiring Officers upon retirement to make oath, that they have received no pecuniary consideration for quitting the Service, has not been enforced by us in any single case of retirement in England, during the period of nearly ferty years which has since clapsed. It was established chiefly upon financial grounds, to prevent (as observed by Lord Cornwallis when recommending other rules for the same object) "an unreasonable load of Pensions." This presumed necessity for the rule has however not yet been felt; on the contrary, additional facilities have been required and have been given, for enabling Officers to retire upon full pay: given, for enabling Officers to retire upon full pay: we shall therefore continue to suspend the operation of the Rule, and Officers retiring from time to time will not be called upon to make the declaration, unless the financial necessity to which we have referred (and of which due notice shall be given) shall at a future period be fully realized."

REWARD OF ONE THOUSAND (1000) RUPEES.

President in Council, with the view of obtaining greater security in the conveyance of Banghy Parcels, especially in reference to protection against the weather, has been pleased to offer a Roward of the abovementioned sum for the discovery of the most effectual means of rendering Banghy Conveyances Waterproof, subject to the following stipulations:

First.—The Box, Basket, or other Case, of whatever material constructed, must be of the dimensions of 18 inches cubic, or capable of containing 5800 cubic inches, and should not exceed ten, or at most cleven pounds avoirdupois in weight, including the fastenings necessary to secure the contents from being pilfered.

necessary to secure the contents from being pilfered.

Second.—The Box. Basket, or Case, must be sufficiently substantial to protect its contents from injury, and to support the thumps and blows from stones and trees; to which it is liable in traversing rocky ground and jungle and must be perfectly impervious to water, for it must be borne in mind that Banghy Boxes, besides exposure to the downward fall of rain, are subject to continued splashing and dipping in water when carried through flooded lands.

Third.—To entitle a party to the offered reward, two complete specimens of the Box, Basket, or Case must be furnished, accompanied by a memorandum explaining in detail the materials of which it is composed, and the cost and manner in which the same can be memorated either singly or by dozens or more.

be prepared either singly or by dozens or more.

Lastly.—The Boxes, Baskets, or Cases, with their accompanying reports, must be delivered to the Post Master General on or before the S1st of July next, when their merits will be decided upon by a Committee of Officers of Government who will be required to examine them and to subject them to such experiments as may be deemed requisite to test their fitness. No test however will be considered conclusive unless the same be supported by actual transit of the Box, Basket, or Case in the height of the South West Monsoon from Calcutta to Cawapore and back, and return without injury to its contents. A report on the specimens will be made to Government with whom the final decision will rest, and in the event of more than one specimen being considered perfectly Water-proof

and as such recommended for reward, the Government will exercise a discretion in granting such reward to more than one candidate, or in selecting the specimen that may be most efficient by the combination of lightness, cheapness, and strength.

ACT No. -- or 1838

I. Clause 1st.—It is hereby enacted, in modifica-tion of the Rules contained in Chapter VIII. Regu-lation XVII. of 1827, of the Bombay Code, that in the Territories subject to the Presidency of Bombay, all Suits in regard to tenures, and the nature and extent of the interest and advantage which in virtue thereof should be enjoyed by the parties concerned, and all Suits in which the right to possession of land, or of the wuttuns of heroditary district or village Officers is claimed, shall be brought in the Courts of Adawlut and the Courts subordinate thereto, and not in the Courts of Revenue.

Clause 2d. - Provided nevertheless, that it shall be lawful for the Revenue Authorities to give immediate pos-session of all Lands, Premises, Trees, Crops, Fisheries, and of all profits arising from the same, to any party dispossessed of the same or of the profits thereof, after being in possession for the space of three months. And in order to the due execution of such power, it shall be lawful for the Revenue Authorities to determine all disputes touching the facts of such possession of property, and the dispossession thereof;—and the party to whom the Revenue Authorities shall so give imm:-diate possession, shall continue in possession, until ejected by a decree of a Court of Adawlut.

Clause 3d. - Provided also, that nothing contained in this Act shall be held to interfere with the jurisdiction defined in Clauses 9, 4, and 5 of Section XXXI. Regulation XVII. of 1827, of the aforesaid Code, which shall continue to be exercised by the Revenue

- II. And it is hereby enacted, that if a Suit be presented in the Court of a Judge or Collector, which such Judge or Collector shall not deem within his jurisdiction, the party presenting such Suit shall be referred by the Court in which it may be first presented to that in which, in the opinion of such Court, the jurisdiction lies, and the latter Court shall, in the event of its doubting its jurisdiction in the case, refer the question of jurisdiction to the Sudder Dewanny Adawlut, whose decision on the point shall be final.
- III. And it is hereby enacted, that if a Suit be presented in any Court subordinate to the Court of a Judge or Collector, which Suit such subordinate Court shall not deem to be within its jurisdiction, such subordinate Court shall submit the case to the Judges or Collectors' Court to which such subordinate Court is subordinate, and if the superior Court to which the case is so submitted shall be of opinion that such subordinate Court has jurisdiction in the case, such superior Court shall direct such subordinate Court to proceed with the case, and if such superior Court shall be of opinion that such subordinate Court has not jurisdiction in the case, such superior Court shall proceed in the manner directed in the last preceding Section.
- IV. And it is hereby enacted, that whenever a Court of Adawlut or a Revenue Court shall have court of Adawlut or a Revenue Court shall have entered on its file, under this Act, a Suit in which it has not jurisdiction, it shall be competent to the Sudder Dewanes Adawlut, either on a reference from the Judge or Collector, (as the case may be), or on application from the parties, to direct that the Suit be transferred, with all the proceedings which may have taken place therein up to the period of transfer to the taken place therein up to the period of transfer, to the Court possessing jurisdiction, which shall proceed therewith as if the Suit had been originally filed in that Court.

GENERAL ORDERS BY THE RIGHT HON'BLE THE GOVERNOR GENERAL.

SIMLA, 4TH MAY, 1838.

Lieutenant T. Hutton, Assistant Revenue Surveyor, has obtained leave of absence, in the Revenue Department, for six months, to visit the Hills, on his private affairs.

WM. CASEMENT, M. G., Secy. to the Govt. of India, Mily. Dept., with the Rt. Hon, the Govr. General.

REWARD OF ONE THOUSAND (1000) RUPEES.

NOTICE is hereby given, that the Hon'ble the President in Council, with the view of obtaining greater security in the conveyance of Banghy Parcels, especially in reference to protection against the weather, has been pleased to offer a Reward of the abovementioned sum for the discovery of the most effectual means of rendering Banghy Conveyances Water-proof, subject to the following stipulations:

First.—The Box, Basket, or other Case, of whatever material constructed, must be of the dimensions of 18 inches cubic, or capable of containing 5800 cubic inches, and should not exceed ten, or at most cloven pounds avoirdupois in weight, including the fascenings necessary to secure the contents from being pilfered.

Second.—The Box, Basket, or Case, must be entireiently substantial to protect its contents from injury, and to support the thumps and blows from stones and trees; to which it is liable in traversing rocky ground and jungle and must be perfectly impervious to water, for it must be borne in mind that Banghy Boxes, besides exposure to the downward fall of rain, are subject to continued splashing and dipping in water when carried through flooded lands,

Third.—To entitle a party to the offered reward, two complete specimens of the Box. Basket, or Case must be furnished, accompanied by a memorandum explaining in detail the materials of which it is composed, and the cost and manner in which the same can be prepared either singly or by dozens or more.

Lastly.—The Boxes, Baskets, or Cases, with their accompanying reports, must be delivered to the Post Master General on or before the 31st of July next, when their merits will be decided upon by a Committee of Officers of Government who will be required to examine thom and to subject them to such experiments as may be deemed requisite to test their fitness. No test however will be considered conclusive unless the same be supported by actual transit of the Box, Basket, or Case in the height of the South West Mon-soon from Calcutta to Cawapore and back, and return without injury to its contents. A report on the speci-mens will be made to Government with whom the final decision will rest, and in the event of more than one specimen being considered perfectly Water-proof and as such recommended for reward, the Government will exercise a discretion in granting such reward to more than one candidate, or in selecting the specimen that may be most efficient by the combination of lightness, chenpness, and strength.

REWARD OF ONE THOUSAND (1000)

RUPEES.

President in Council, with the view of obtaining greater security in the conveyance of Banghy Parcels, especially in reference to protection against the weather, has been pleased to offer a Reward of the abovementioned sum for the discovery of the most effectual means of rendering Banghy Conveyances Waterproof, subject to the following stipulations:

First.—The Box, Basket, or other Case, of whatever material constructed, must be of the dimensions of 18 inches cubic, or capable of containing 5800 cubic inches, and should not exceed ten, or at most eleven pounds avoirdupois in weight, including the fastenings necessary to secure the contents from being pilfered.

Second.—The Box, Basket, or Case, must be sufficiently substantial to protect its contents from injury, and to support the thumps and blows from stones and trees; to which it is liable in traversing rocky ground and jungle and must be perfectly impervious to water, for it must be borne in mind that Banghy Boxes, besides exposure to the downward fall of rain, are subject to continued splashing and dipping in water when carried through flooded lands.

Third.—To entitle a party to the offered reward, two complete specimens of the Box, Basket, or Case must be furnished, accompanied by a memorandum explaining in detail the materials of which it is composed, and the cost and manner in which the same can be prepared either singly or by dozens or more.

Lastly.—The Boxes, Baskets, or Cases, with their accompanying reports, must be delivered to the Post Master General on or before the Sist of July next, when their merits will be decided upon by a Committee of Officers of Government who will be required to examine them and to subject them to such (vaccing the state of the state o to examine them and to subject them to such experi-ments as may be deemed requisite to test their fitness. No test however will be considered conclusive unless the same be supported by actual transit of the Box, Basket, or Case in the height of the South West Mon-Basect, or Case in the neight of the South West Mon-soon from Calcutta to Cawnpore and back, and return without injury to its contents. A report on the speci-mens will be made to Government with whom the final decision will rest, and in the event of more than one specimen being considered perfectly Water-proof and as such recommended for reward, the Government will exercise a discretion in granting such reward to more than one candidate, or in selecting the speci-men that may be most efficient by the combination of lightness, cheapness, and strength.

NOTICE is hereby given, that the Hon'ble the President in Council, with the view of obtaining greater security in the conveyance of Banghy Parcels, especially in reference to protection against the weather, has been pleased to offer a Reward of the abovementioned sum for the discovery of the most effectual means of rendering Banghy Conveyances Waterproof, subject to the following stipulations:

First.—The Box, Basket, or other Case, of whatever material constructed, must be of the dimensions of 18 inches cubic, or capable of containing 5800 cubic inches, and should not exceed ten, or at most eleven pounds avoirdupois in weight, including the fastenings

necessary to secure the contents from being pilfered.
Second.—The Box, Basket, or Case, must be sufficiently substantial to protect its contents from injury, and to support the thumps and blows from stones and trad; to which it is liable in traversing rocky ground and jurgle and must be perfectly investigated. and jungle and must be perfectly impervious to water, for it must be borne in mind that Banghy Boxes, besides exposure to the downward fall of rain, are subject to continued splashing and dipping in water when carried through flooded lands.

Third.—To entitle a party to the offered reward, two complete specimens of the Box, Basket, or Case must be furnished, accompanied by a memorandum explaining in detail the materials of which it is composed, and the cost and manner in which the same can be prepared either singly or by dozens or more

Lastly.—The Boxes, Baskets, or Cases, with their accompanying reports, must be delivered to the Post Master General on or before the 31st of July next, when their merits will be decided upon by a Committee of Officers of Government who will be required to avaning them and to avain them to such them. to examine them and to subject them to such experiments as may be deemed requisite to test their fitness. No test however will be considered conclusive unless the same be supported by actual transit of the Box, Basket, or Case in the height of the South West Monsoon from Calcutta to Cawnpore and back, and return without injury to its contents. A report on the speci-mens will be made to Government with whom the final decision will rest, and in the event of more than one specimen being considered perfectly Water-proof and as such recommended for reward, the Government will exercise a discretion in granting such reward to more than one candidate, or in selecting the speci-men that may be most efficient by the combination of lightness, cheapness, and strength.

FORT WILLIAM, GENERAL DEPARTMENT,

THE SD JUNE, 1838. NOTICE.

An express has been received from the Head Quarters of the Governor General from which it appears that His Lordship has instructed the Government of Bombay to dispatch the Semiramis Steamer to Suez, on the first favorable day after the 18 h June — The letter carrying these instructions to Bombay is dated the 22d May, —on the other hand it appears from letters received from that Presidency, that on the 21st of that month the Government of Bombay resolved to dispatch the Semirams on special service to the Persian Gulf, and she was expected to be ready for Sea in ten days from that date. It is possible therefore that the Government of Bombay may not receive the Governor General's orders for the dispatch of the Semiramis to Suez in time.

The President in Council has thought it proper to place the Public in possession of the information he has received on this subject, that every one may judge whether to send letters by the opportunity with full-knowledge of the uncertainty which exists whether they can be forwarded.

The Post Master General will notify the latest safe date on which letters can be disputched from Calcutta so as to reach Bombay on the 19th June.

It is necessary to add that no arrangements have been made to provide for the convoyance of an overland Mail to Byroot from the Persian Gulf in this season.

REWARD OF ONE THOUSAND (1000). RUPEES.

President in Council, with the view of obtaining greater security in the conveyance of Banghy Parcels, especially in reference to protection against the weather, has been pleased to offer a Reward of the abovementioned sum for the discovery of the most effectual means of rendering Banghy Conveyances Waterproof, subject to the following stipulations:

First.—The Box, Basket, or other Case, of whatever material constructed, must be of the dimensions of 18 inches cubic, or capable of containing 5800 cubic inches, and should not exceed ten, or at most eleven pounds avoirdupois in weight, including the fastenings necessary to secure the contents from being pilfered.

Second.—The Box, Basket, or Case, must be sufficiently substantial to protect its contents from injury, and to support the thumps and blows from stones and trees; to which it is liable in traversing rocky ground and jungle and must be perfectly impervious to water, for it must be borne in mind that Banghy Boxes, besides exposure to the downward fall of rain, are subject to continued splashing and dipping in water when carried through flooded lands.

Third.—To entitle a party to the offered reward, two complete specimens of the Box, Basket, or Case must be furnished, accompanied by a memorandum explaining in detail the materials of which it is composed, and the cost and manner in which the same can be prepared either singly or by dozens or more.

Lastly.-The Boxes, Baskets, or Cases, with their accompanying reports, must be delivered to the Post Master General on or before the 31st of July next, when their merits will be decided upon by a Committee of Officers of Government who will be required to examine them and to subject them to such experiments as may be deemed requisite to test their fitness. No test however will be considered conclusive unless the same be supported by actual transit of the Box, Busket, or Case in the height of the South West Monsoon from Calcutta to Cawupore and back, and return without injury to its contents. A report on the specimens will be made to Government with whom the final decision will rest, and in the event of more than one specimen being considered perfectly Water-proof, and as such recommended for reward, the Government will exercise a discretion in granting such reward to more than one candidate, or in selecting the specimen that may be most efficient by the combination of lightness, cheapness, and strength.

SUPPLEMENT TO

The Calcutta Gazette.

Published by Authority.

SATURDAY, JUNE 16, 1838.

OTICE.—The Mails from this Office, on the 16th ultime, for the Head Quarters of the Governor General of India, Dekhi, Meerutt, Saharunpore, Loodianah, Siuda, Scobatuse and Umballa, respectively, are reported to be missing after passing the Station of Mynpooree. The circumstances connected with the less of these Mails have not yet been ascertained, but the time which has clapsed since they were reported to be missing, without further tidings, leads to the inference that they are irrecoverably lost, and therefore the subjoined list of the contents of those Mails is published for general information, in order that parties, deeming it expedient to do so, may forward duplicate copies of the missing letters and papers.

REWARD OF ONE THOUSAND (1000) RUPEES.

President in Council, with the view of obtaining greater security in the conveyance of Banghy Parcels, especially in reference to protection against the weather, has been pleased to offer a Reward of the abovementioned aum for the discovery of the most effectual means of rendering Banghy Conveyances Water-proof, subject to the following stipulations:

First.—The Box, Basket, or other Case, of whatever material constructed, must be of the dimensions of 18 inches cubic, or capable of containing 5800 cubic

inches, and should not exceed the or at most eleven pounds avoirdupois in weight actual the fastenings necessary to secure the content being pilfered.

Second.—The Box, Basket, Case, must be sufficiently substantial to protect it contents from injury, and to support the thumps and blows from stones and trees; to which it is liable in traversing rocky ground and jungle and must be perfectly impervious to water, for it must be borne in mind that Banghy Boxes, besides exposure to the downward fall of rain, are subject to continued splashing and dipping in water when carried through flooded lands.

Third.—To entitle a party to the offered reward, two complete specimens of the Box, Basket, or Case must be furnished, accompanied by a memorandum explaining in detail the materials of which it is composed, and the cost and manner in which the same can be prepared either singly or by dozens or more.

Lastly.—The Boxes, Baskets, or Cases, with their accompanying reports, must be delivered to the Post Master General on or before the 31st of July next, when their merits will be decided upon by a Committee of Officers of Government who will be required to examine them and to subject them to such experiments as may be deemed requisite to test their fitness. No test however will be considered conclusive unless the same be supported by actual transit of the Box, Basket, or Case in the height of the South West Monsoon from Calcutta to Cawnpore and back, and return without injury to its contents. A report on the specimens will be made to Government with whom the final decision will rest, and in the event of more than one specimen being considered perfectly Water-proof, and as such recommended for reward, the Government will exercise a discretion in granting such reward to more than one candidate, or in selecting the specimen that may be most efficient by the combination of lightness, cheapness, and strength.

REWARD OF ONE THOUSAND (1000) RUPEES.

OTICE is hereby given, that the Hon'ble the President in Council, with the view of obtaining greater security in the conveyance of Banghy Parcels, especially in reference to protection against the weather, has been pleased to offer a Reward of the abovementioned sum for the discovery of the most effectual means of rendering Banghy Conveyances Water-proof, subject to the following stipulations:

First.-The Box, Basket, or other Case, of whatever material constructed, must be of the dimensions of 18 inches cubic, or capable of containing 5800 cubic

inches, and should not exceed ten, or at most eleven pounds avoirdupois in weight, including the fustanings necessary to secure the contents from being pillered.

Second.—The Box, Basket, or Case, must be sufficiently substantial to protect its contents from injury, and to support the thumps and blows from stones and trees; to which it is liable in traversing rocky ground and jungle and must be perfectly impervious to water, for it must be borne in mind that Banghy Boxes, besides exposure to the downward fall of rain, are subject to continued relabilized and display in water when to continued splashing and dipping in water when carried through flooded lands.

Third.—To entitle a party to the offered reward, two complete specimens of the Box, Basket, or Case

must be furnished, accompanied by a memorandum explaining in detail the materials of which it is composed, and the cost and manner in which the same can

posed, and the cost and manner in which the same can be prepared either singly or by dozens or more. Lastly.—The Boxes, Baskets, or Cases, with their accompanying reports, must be delivered to the Post Master General on or before the 31st of July next, when their merits will be decided upon by a Com-mittee of Officers of Government who will be sequired to examine them and to subject them to such experiments as may be deemed requisite to test their atness. No test however will be considered conclusive unless the same be supported by actual transit of the Box, Basket, or Case in the height of the South West Mensoon from Calcutta to Cawnpore and back, and return without injury to its contents. A report on the specimens will be made to Government with whom the final decision will rest, and in the event of more than one specimen being considered perfectly Water-proof, and as such recommended for reward, the Government will exercise a discretion in granting such reward to more than one candidate, or in selecting the speci-men that may be most efficient by the combination of lightness, cheapness, and strength.

FORT WILLIAM, 18th June, 1898.

FORT WILLIAM, 18th June, 1838.

No. 94 of 1838.—The Honorable the President in Council is pleased to direct, that the following extract of a Military Letter from the Honble the Court of Directors to the Governor of Bengal, No. 38, dated 10th April 1838, be published in General Orders:

"Pata 20. In our Military Letter to Bombay, of the 10th April 1838. (No. 18) Para. 5, We stated, that we would convey to you our reply to the Memorial of Major Moore, the Deputy Military Auditor General at that Presidency, relating to his Claim to superior House Rent or Regimental Tentage, and we take the present opportunity of fulfilling that intention.

21. We learn from that Memorial and its accompanying Proceedings that three different systems obtain in respect to the House Rent or House Rent and Tentage, of the Staff Officers stationed at the Capitals of each of the three Presidencies. Those stationed at Madras draw Regimental Tentage and Regimental House Rent, whilst those at Calcutta and Bombay draw no Tentage, but those at Calcutta receive a superior rate of House Rent, and those at Parameter of Parameter and Parameter of Parameter and Parameter of Parameter and Paramete receive a superior rate of House Rent, and those at Bombay draw House Rout according to Regimental Rank.

22. The Bengal system was established on the principle of giving to Staff Officers at the Presidency House Rent exceeding by 50 per Cent. the rates previously drawn by them. This principle received our sanction, and we now direct that it be extended to the Staff Officers stationed at the Capitals of the three

Presidencies.

23. It our Letter to Bombay of the 2d May 1827, we directed that Officers holding Stationary Staff Appointments should not be allowed to draw Tentage, that being an allowance intended solely to cover the expense of providing Tents and Tent Carriage to which such Officers were not liable. This Order has not yet been extended to Madras, but we now desire that it may be made applicable to that Presidency also."

vice of this Presidency:
Para. 1. In our Despatch to India in this Depart-Para. 1. In our Despates to Intal in this Department dated 27th May 1835, we sanctioned for a limited period and on specific conditions the appropriation to Subscribers to the Civil Service Retiring Funds of two-thirds of the unaccepted Annuities of each year at one-fourth instead of one-half their value, and we desired that twelve menths before the expiration of the period fixed there might be transmitted to us particular in-formation of the state of the Funds at that date, and of the effect produced by the authorized modification in order that we might determine upon the propriety of its continuance.

2d. We rely upon receiving the information re-

quired as soon as possible after the appointed period-but to prevent inconvenience from the declaration of our intentions not having reached India at the date of the expiration of the time to which the trial of the

plan was limited, we are willing to enlarge that limitation to the 30th of April 1840; and Wellspire to be furnished with an account made up to the 30th of April 1859, similar to that required in our Despatch above referred to.

The Hon'ble the Deputy Governor of Bengal directs, that the following Extract from a Despatch from the Hon'ble the Court of Directors, in the Financial Department, dated the 28th March 1838, be published for information.

14. Relates to Application from Mesers. Bruce, Shand and Co. for advance upon Goods consigned to Liverpool, the Bills being payable in London, which was refused.

5. In our Despatch to Bombay in this Department dated the 6th July 1836, a copy of which was forwarded for your information, we authorized the Bombay Government so far to relax the Regulations for effecting re-

mittances as to make advances on Goods consigned to Liver, and, in consideration of its being almost exclusively the Port of the great Cotton District of England, but with the proviso that the Bills must in all cases be made payable in London, and we shall not object to subction a simi-lar relaxation of the Regulations at your Presidency. You will distinctly understand however that no modification of this kind can be permitted without previous reference to us, and in case of such reference becoming necessary, we desire that you will furnish us with any information which you may be able to obtain as to the probability of an extensive or permanent demand for remittance to the proposed Port, in order that our judgment may be assisted in deciding upon arrangements with which considerable trouble and expense are connected for local management and superintendence.

6. Glasgow being the chief Port for the Cotton District of Scotland, as is Liverpool for that of England, we shall not object to advances on Goods consigned to that Port—such extension must take place upon the same conditions in every respect as those which we have laid down with regard to Liverpool.

NOW PUBLISHED, Mosers Dodwell and Miles, East India Army Agents, have published, dedicated by permission to the Honorable Court of Directors of the East India Company, an Alphabetical list of the Officers of the Indian Army at the three Presidencies, from the year 1780 to the year 1884, inclusive, with their date of Appointment as Cadet, of their respective Promotions, and of their Retirement, Resignation, or Death, to the year 1837, whether in England or in India. We have now before us a specimen of the labour of these Gentlemen, and as a work of intormation to the Indian Army, as regards their relative Promotions and Retirement, (but particularly at this time when the an for revising the Retiring Regulations of the Military Service is engressing so much attention in India) as well as a book of reference to the names of Officers for these last 80 years, who had died, retired, or been killed in Action, as well as the several Promotions of these now in the service, it is equally replete with interest. The guarantee which the public have for the correctness of this work is, that the Compilers held for many years important situations in the Military Department of the East Andia Company's Home Service, and necessarily became conversant with the means of furnishing materials for this work.'—Sunday Times, Nov. 12, 1837.
